## WARNINGS

**To avoid electrical shock, do not open the cabinet. Refer servicing to qualified personnel only.**

**Use the supplied AC adaptor only. If you use other types, it may cause fire, electrical shocks or a malfunction.**

**CAUTION – Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.**

CLASS 1 LASER PRODUCT  
LASER KLASSE 1 PRODUKT

This appliance is classified as a CLASS 1 LASER product under IEC60825-1: 2001.

- This product is intended for ages 6 and up.
- Avoid prolonged use of the PSP® system. To help prevent eye strain, take a break of about 15 minutes during every hour of play.

- If you experience any of the following health problems, discontinue use of the system immediately. If symptoms persist, consult with your doctor.
  - Dizziness, nausea, fatigue or symptoms similar to motion sickness
  - Discomfort or pain in a part of the body, such as eyes, ears, hands or arms

## FOR CUSTOMERS IN THE UNITED KINGDOM

### Regulatory information

- The nameplate is located in the battery compartment of the unit.
- This equipment has been tested and found to comply with the limits set out in the R&TTE Directive using a connection cable shorter than 3 meters.
- This equipment complies with EN55022 Class B and EN55024 for use in following areas: residential, commercial and light-industrial.

A molded plug complying with BS1363 is fitted to this equipment for your safety and convenience. Should the fuse in the plug supplied need to be replaced, a 3AMP fuse approved by ASTA or BSI to BS1362, (i.e., marked with  or  mark) must be used. If the plug supplied with this equipment has a detachable fuse cover, be sure to attach the fuse cover after you change the fuse. Never use the plug without the fuse cover. If you should lose the fuse cover, please contact your nearest Sony service station.

## Photosensitivity

Always play in a well lit environment. Take regular breaks, 15 minutes every hour. Avoid playing when tired or suffering from lack of sleep. Some individuals are sensitive to flashing or flickering lights or geometric shapes and patterns, may have an undetected epileptic condition and may experience epileptic seizures when watching television or playing videogames. Consult your doctor before playing videogames if you have an epileptic condition and immediately should you experience any of the following symptoms whilst playing: dizziness, altered vision, muscle twitching, other involuntary movement, loss of awareness, confusion and/or convulsions.

## Repetitive Motion Injuries

Avoid prolonged use of the PSP® system. Take a 15 minute break every hour. Stop using the PSP® system immediately if you experience an unpleasant sensation or pain in your hands, wrists or arms. If the condition persists, consult a doctor.

## Headphones

Adjust your headphone volume so that surrounding sounds can be heard. If you experience ringing or any discomfort in your ears, discontinue use of your Headphones.

## Radio waves

Radio waves may affect electronic equipment or medical devices (for example, pacemakers), which may cause malfunctions and possible injuries.

- If you use a pacemaker or other medical device, consult your doctor or the manufacturer of your medical device before using the wireless networking feature.
- Keep the PSP® system at least 20 cm away from a pacemaker or other medical devices when using the wireless networking feature.
- Do not carry the PSP® system in a breast pocket if you use a pacemaker.
- Turn off your PSP® system immediately, if you have any reason to suspect that interference is occurring with your pacemaker.
- Do not use the wireless networking feature in the following locations:
  - Areas where its use is prohibited, such as in aeroplanes or hospitals. Abide by medical institution regulations when using the PSP® system on their premises. Additionally, you may be violating air safety regulations punishable by fines by using the wireless networking feature in an aeroplane or by using the PSP® system during takeoff or landing.
  - Crowded areas.
  - Areas near fire alarms, automatic doors and other types of automated equipment.
- Use caution when using the wireless networking feature in a vehicle, as radio waves may affect electronic equipment in some vehicles.

Where you see this symbol on any of our electrical products or packaging, it indicates that the relevant electrical product should not be disposed of as general household waste in Europe. To ensure the correct waste treatment of the product, please dispose of it in accordance with any applicable local laws or requirements for disposal of electrical equipment. In so doing, you will help to conserve natural resources and improve standards of environmental protection in treatment and disposal of electrical waste.

## About DNAS

Sony Computer Entertainment Inc. uses DNAS (Dynamic Network Authentication System), a proprietary authentication system, to help protect copyright and security in connecting the PSP® system to a network. DNAS may retrieve information about a user's hardware and software for authentication, copy protection, account blocking, system, rules, or game management and other purposes. The information collected does not identify the user personally. The unauthorised transfer, exhibition, export, import or transmission of programs and devices circumventing its authentication scheme may be prohibited by law.

## System Software

The System Software included within this product is subject to a limited licence from Sony Computer Entertainment Inc. Refer to <http://www.scei.co.jp/psp-eula> for further details.

## About the PSP® system documentation

The PSP® (PlayStation®Portable) system documentation includes the following:

### **Safety and Support (this document)**

This document contains safety information related to the use of the PSP® system, troubleshooting, specifications and other information.

### **Quick Reference**

This document contains information on basic hardware operations of the PSP® system.

### **User's Guide**

**(<http://manuals.playstation.net/document/>)**

This online document is accessed through the Internet and contains detailed information related to use of the PSP® system software.

## Before use

# Precautions

Carefully read the supplied instructions before use. Retain them for future reference.

## Safety

This product has been designed with the highest concern for safety. However, any electrical device, if used improperly, has the potential for causing fire, electrical shock or personal injury. To help ensure accident-free operation, follow these guidelines:

- Observe all warnings, precautions and instructions.
- Regularly inspect the AC Adaptor and AC Power Cord for damage and for dust build-up around the power plug or electrical outlet.
- Stop use, unplug the AC Power Cord from the electrical outlet and disconnect any other cables immediately if the device functions in an abnormal manner, produces unusual sounds or smells or becomes too hot to touch.

## Use and handling

- Use in a well-lit area and keep the screen a safe distance from your face.
- Avoid prolonged use of the PSP® system. To help prevent eyestrain, take a break of about 15 minutes during every hour of play.
- Exercise care when setting the volume. If you set the volume too high, it may harm your hearing or damage the speakers.

- Keep the system and accessories out of the reach of small children, as small children may swallow small parts such as Memory Stick Duo™.
  - Do not use the system while driving or riding a bicycle. Looking at the screen or operating the system while driving an automobile or riding a bicycle may result in a traffic accident.
  - Do not use the system or accessories near water.
  - Use only attachments/accessories specified by the manufacturer.
  - Do not expose the system or accessories to high temperatures, high humidity, or direct sunlight.
  - Do not leave the system or accessories in a car with the windows closed (particularly in summer).
  - Do not expose the system or accessories to dust, smoke or steam.
  - Do not allow liquid or small particles to get into the system or accessories.
  - Do not place the system or accessories on surfaces that are tilted, unstable or subject to vibration.
  - Do not throw, drop or step on the system or accessories, and do not subject the devices to strong physical shock. Sitting down with the PSP® system in a pocket or placing the system in the bottom of a backpack along with heavy objects may cause damage to the system.
  - Do not forcibly twist the PSP® system or expose the system to strong physical shock during gameplay, as doing so can damage the system or cause the disc cover to open, ejecting the disc. Handle the analog stick with care.
  - Do not put heavy objects on the system or accessories.
  - Do not touch or insert foreign objects into the connectors of the system or accessories.
  - Do not touch the system or AC Adaptor for an extended period of time while in use. Depending on the conditions of use, the system or the AC Adaptor may reach temperatures of 40° C or more. Extended contact under these conditions may cause low-temperature burns\*.
- \* Low-temperature burns are burns that occur when the skin is in contact with objects of the AC relatively low temperatures (40° C or more) for an extended period of time.

## AC Adaptor and AC Power Cord use

- Do not touch the plug of the AC Power Cord with wet hands.
- Do not touch the AC Power Cord, AC Adaptor or the system, if connected to an electrical outlet, during an electrical storm.
- Do not use a power source other than the supplied Battery Pack, AC Adaptor and AC Power Cord.
- Do not allow dust or foreign matter to build up around the system or accessory connectors. If there is dust or foreign matter on the system's connectors or the AC Power Cord, wipe it off with a dry cloth before connecting. Dust or other matter on the connectors can result in fire or electrical shock.
- Unplug the AC Power Cord from the electrical outlet and remove the Battery Pack from the system before cleaning or when you do not intend to use the system for an extended period of time.
- Protect the AC Power Cord from being walked on or compressed particularly at plugs and the point where they exit from the system.
- When disconnecting the AC Power Cord, hold it by the plug and pull straight out from the electrical socket. Never pull by the cord and do not pull at an angle.
- Do not use the system to play games, video or music when the system is covered with any type of fabric. If you want to pause or temporarily store the system while playing games, video or music, put the system in Sleep Mode before placing it in the Pouch.
- Do not connect the AC Power Cord to a voltage transformer or inverter. Connecting the AC Power Cord to a voltage transformer for overseas travel or an inverter for use in an automobile may cause heat to build up in the AC Adaptor and may cause burns or a malfunction.
- The socket-outlet shall be installed near the equipment and shall be easily accessible.

## LCD screen

- The LCD screen is made of glass and may crack if subjected to excessive force.
- Black (dark) pixels and continuously lit pixels may appear in certain locations on the LCD screen. The appearance of such spots is a normal occurrence associated with LCD screens and is not a sign of a system malfunction. LCD screens are made using highly precise technology. However, a very small number of dark pixels or continuously lit pixels exist on each screen. Also, a distorted image may remain on the screen for several seconds after the system has been turned off.
- Direct exposure to sunlight may damage the system's LCD screen.
- When using the system in a cold environment, you may notice shadows on the graphics or the screen may appear darker than usual. This is not a malfunction, and the screen will return to normal when the temperature rises.
- Do not leave still images displayed on the screen for an extended period of time. This may cause a faint image to be left permanently on the screen.

## Memory Stick Duo™

For best results, follow these guidelines:

- Do not touch the connector area (A) with your hands or with metal objects.
- Do not press hard when writing on the memo area (B).
- Do not insert a Memory Stick Duo™ into a device designed to accept only standard-size Memory Stick™ media.
- Do not use or store a Memory Stick Duo™ in the following:
  - Places subject to high temperatures, such as in a hot vehicle
  - Locations exposed to direct sunlight
  - Locations that are very humid or conducive to corrosion
- Use the supplied case to carry or store the Memory Stick Duo™.
- When using Memory Stick Duo™ media without an erasure prevention switch, take care not to overwrite or delete data by accident. If your Memory Stick Duo™ media has an erasure prevention switch, you can prevent data from being saved, edited, or deleted by setting the switch in the LOCK position.

### Recorded data

Do not use the Memory Stick Duo™ in the following ways, as doing so may result in data loss or corruption:

- Removing the Memory Stick Duo™ or turning off the system while it is loading or saving data or being formatted.
- Using it in a location that is exposed to static electricity or electrical interference.

If, for any reason, software or data loss or corruption occurs, it is usually not possible to recover the software or data. Sony Computer Entertainment Inc. and its subsidiaries and affiliates accept no liability for damages, costs or expenses arising from software, data loss or corruption.

### Pouch

- If you want to pause or temporarily store the system while playing games or video, put the system in Sleep Mode before placing it in the Pouch. This may help to avoid overheating.
- Put both the PSP® system and the Remote Control in Hold Mode to help prevent unintended operation.

### Never disassemble the system or accessories

Use the PSP® system and accessories according to the instructions in this manual. No authorisation for the analysis or modification of the system, or the analysis and use of its circuit configurations, is provided. Disassembling will void the system warranty and may be harmful. The LCD screen, in particular, contains dangerous, high-voltage parts, and the laser beam for reading UMD™ may cause visual impairment if exposed directly to the eyes.

### Using the access point

When using the PSP® system's 'Scan' function to select the wireless LAN access point, access points that are not intended for public use

may be displayed. Only connect to a personal access point that you are authorised to use, or one that is available through a public wireless LAN or hotspot service.

### Overseas use

When travelling note any applicable wireless regulations.

### Moisture condensation

If the PSP® system or UMD™ is brought directly from a cold location to a warm one, moisture may condense on the lens inside the system or on the UMD™. Should this occur, the system may not operate properly. In this case, remove the UMD™ and turn off and unplug the system. Do not put the UMD™ back in until the moisture evaporates (this may take several hours). If the system still does not operate properly, contact the appropriate PSP® customer service helpline which can be found within every PSP® format software manual.

### UMD™ handling

- Do not touch the opening on the rear of the disc (recorded surface of the disc) with your fingers.
- Do not allow dust, sand, foreign objects or other types of dirt to get on the disc.
- If the UMD™ becomes dirty, gently wipe the exterior and recorded surfaces of the UMD™ using a soft cloth. Do not use solvents or other chemicals.
- Do not use a UMD™ that is cracked or warped or has been repaired. The UMD™ may break inside the PSP® system, leading to injury or malfunction.

### Use and handling of the system

Follow the guidelines listed below to help avoid deterioration or discoloration of the PSP® system:

- Do not use solvents or other chemicals to clean the exterior surface.
- Do not allow the system to remain in direct contact with rubber or vinyl products for an extended period of time.
- Do not use a chemically-treated cleaning cloth to wipe off the system.

### Before using the analog stick

For best results, go to  (Settings) →  (System Settings) and then with the "System Information" screen displayed, rotate the analog stick in a circular motion. This will adjust the analog stick's range of movement.

### Cleaning

For safety reasons, unplug the AC Power Cord from the electrical outlet and remove the Battery Pack from the system before cleaning.

### Cleaning the exterior surface and LCD screen

Wipe gently with a soft cloth.

### Cleaning the connectors

If the headphones or remote control connectors become dirty, this could cause noise or interruptions in sound. Wipe the connectors with a dry, soft cloth to keep in clean condition.

## Battery Pack precautions

### Warnings

#### Do not handle a damaged or leaking Battery Pack.

Contact with the material can result in injury or burns to the eyes or skin. Even if foreign substances are not immediately visible, chemical changes in the material can result in injuries occurring at a later time.

If you come into contact with material from a leaking Battery Pack, take the following actions:

- If the material gets into the eyes, do not rub. Immediately rinse the eyes with clean water and seek medical attention.
- If the material comes into contact with the skin or clothes, immediately rinse the affected area with clean water. Consult your doctor if inflammation or soreness develops.

#### Handle the Battery Pack with care.

The Battery Pack may explode or present a fire or chemical burn hazard if it is not handled carefully.

- Do not allow the Battery Pack to come into contact with fire or subject it to extreme temperatures such as in direct sunlight, in a vehicle exposed to the sun or near a heat source.
- Do not cause the Battery Pack to short-circuit.
- Do not disassemble or tamper with the Battery Pack.
- Prevent damage to the Battery Pack. Do not carry or store the Battery Pack with metal items such as coins or keys. If damaged, discontinue use.
- Do not throw or drop the Battery Pack or subject it to strong physical shock.
- Do not put heavy objects on or apply pressure to the Battery Pack.
- Do not allow the Battery Pack to come into contact with liquids. If it becomes wet, discontinue use until it is completely dry.

- Keep the Battery Pack out of the reach of small children.
- If the PSP® system will not be used for an extended period of time, remove the Battery Pack and store it in a cool, dry place out of the reach of children.
- Use only the supplied Battery Pack or a replacement marked for use with the PSP® system.
- Use only the designated AC Adaptor to charge the Battery Pack.

### Estimated battery duration

Game	Approximately 3 - 6 hours* <sup>1</sup>
Video playback	Approximately 3 - 5 hours* <sup>2</sup>

\*<sup>1</sup> Based on tests conducted using the supplied Battery Pack, with the system in single player mode, with Headphones with Remote Control in use, and with wireless LAN not in use.

\*<sup>2</sup> Based on tests conducted using variables of system speakers versus Headphones, volume level and screen brightness level.

#### Hint

Battery duration may vary depending on the type of content being played or usage conditions such as screen brightness and environmental factors. As the battery ages, lower battery duration will result.

### Estimating the battery charge time

When using the supplied Battery Pack, it takes approximately 2 hours and 20 minutes to fully charge the battery using the AC Adaptor after the battery has run out.

**Hints**

- Charge in a temperature of 10°C to 30°C. Charging may not be as effective in other environments.
- Charging may take longer when the system is turned on during charging.

**Battery Pack life**

- The Battery Pack has a limited lifespan. Battery duration will decrease with repeated usage and age. If the battery duration becomes extremely short, it may be time to replace the Battery Pack.
- The Battery Pack lifespan varies depending on how it is stored, the conditions of use and environmental factors, such as temperature.

**Replacing the Battery Pack**

- For safety reasons, turn off the system and remove the power cord from the electrical outlet before replacing the Battery Pack.
- If the system is left unused after the Battery Pack has been removed, the date and time settings may be reset. If this occurs, the date and time setting screen will be displayed the next time the PSP® system is turned on.

**Storing the Battery Pack**

When the system will not be used for an extended period of time, remove the Battery Pack from the system. Store the Battery Pack in a cool, dry place out of the reach of children.

## Compatible media

The media types listed below can be used on the PSP® system. Throughout this manual, the term "Memory Stick Duo™" is used to refer to all types of Memory Stick™ media in the table below.

Type	Logo
UMD™	
Memory Stick Duo™ (not MagicGate™-compatible)	<b>MEMORY STICK DUO</b>
MagicGate™ Memory Stick Duo™ *1	<b>MEMORY STICK DUO MAGICGATE</b>
Memory Stick Duo™ (MagicGate™ compatible) *1 *2	<b>MEMORY STICK DUO MAGICGATE</b>
Memory Stick PRO Duo™ *1 *2	<b>MEMORY STICK PRO DUO MAGICGATE</b>

\*1 Compatible with MagicGate™

\*2 Compatible with high-speed data transfer over a parallel interface. The actual data transfer speed will vary depending on the Memory Stick Duo™-compatible device.

### Hints

- Performance of all Memory Stick™ media is not guaranteed.

- If a Memory Stick Duo™ is formatted in a device other than the PSP® system, such as a PC, it is possible that the system will not recognise it. If this happens, go to  (System Settings) ➔ "Format Memory Stick™" and re-format the Memory Stick Duo™.

## UMD™

UMD™ contain a region code that is assigned to each sales region. This system can play UMD™ marked with either region code "ALL", "4" (PSP-1002 only) or "2" (PSP-1003 only).

(PSP-1002 only)

(PSP-1003 only)

## Memory Stick™

There are two sizes of Memory Stick™: the standard size and the smaller size. The PSP® system is compatible with Memory Stick Duo™, the smaller sized type. The standard-size Memory Stick™ cannot be used with the system.

## Memory Stick Duo Adaptor (sold separately)

The Memory Stick Duo Adaptor (MSAC-M2: a Sony product sold separately) allows a Memory Stick Duo™ to be used with devices that take a standard-size Memory Stick™.

## Parallel data transfer (high-speed data transfer)

Parallel data transfer is a high-speed data transfer technology that allows multiple data input/output connectors on the Memory Stick™ to be used at the same time (parallel interface).

## MagicGate™-compatible Memory Stick Duo™

MagicGate™-compatible Memory Stick Duo™ media has been designed with an indented area (A) to allow it to be differentiated by touch from Memory Stick Duo™ media that is not MagicGate™-compatible.

## MagicGate

MAGICGATE is a term of copyright-protection technology developed by Sony Corporation.

MAGICGATE does not guarantee compatibility with other products bearing the "MagicGate" trademark.

## Troubleshooting

### Before requesting service

Go through this section if you experience difficulty in operating the PSP® system. Should any problem persist, contact the appropriate PSP® customer service helpline which can be found within every PSP® format software manual.

#### Power, battery and charging issues

##### The power does not turn on.

- ➔ Check that the battery is charged.
- ➔ Check that the Battery Pack is properly inserted.

##### The battery does not charge, or does not fully recharge.

- ➔ Check that the AC Adaptor and the AC Power Cord are properly inserted in the system and the electrical outlet.
- ➔ Check that the WLAN function is not in use while charging. The battery cannot be recharged when the WLAN function is in use.
- ➔ Check that the correct AC Adaptor for this product is being used.
- ➔ Check that the AC Adaptor connector is clean. If not, wipe it with a dry, soft cloth.
- ➔ If charging the battery in an extremely cold location, it may take longer to fully charge the battery.
- ➔ There may be a problem with the Battery Pack. Try using a replacement Battery Pack that is marked for use with the PSP® system, if available.

##### The battery charge doesn't last long.

- ➔ When using the system in extremely hot or cold locations, the charge may not last as long. Try to avoid using the system in such environments.
- ➔ There may be a problem with the Battery Pack. Try using a replacement Battery Pack that is marked for use with the PSP® system, if available.

##### The POWER indicator is on, but the LCD screen is not displayed.

- ➔ Check that the LCD screen's backlight is not turned off. If it is, press any of the system buttons to turn on the backlight.

##### The battery loses its charge even when the system is turned off.

- ➔ Because battery power is used even when the system is turned off, it is recommended that you charge the battery frequently.

#### Screen

##### The screen suddenly turns dark.

- ➔ If "Backlight Auto-Off" under  (Power Save Settings) has been set, the LCD screen's backlight will automatically turn off if the system is left inactive for the set amount of time.
- ➔ If "Auto Sleep" under  (Power Save Settings) has been set, the system will automatically enter sleep mode if left inactive for the set amount of time.

##### The screen is dark and hard to see.

- ➔ The screen may appear dark, depending on the angle of viewing. Use the display button on the system front to adjust the brightness.

---

**Black or continuously lit pixels on the screen do not disappear.**

- ➔ LCD screens are made with highly precise technology, but in some cases, black (dark) pixels or continuously lit pixels may appear on the screen. This is not a system malfunction. For details, see "Precautions" (➔▶ page 6).

---

**The colour of the screen does not look right.**

- ➔ If "Theme" under  (Theme Settings) is set to "Original", the background colour will automatically change at the beginning of each month.

---

## Sound

---

**There is no sound.**

- ➔ Check that the volume is not set to zero. Try raising the volume.
- ➔ Check that the mute setting is not on. Press the sound button on the system front to clear the mute setting.
- ➔ When headphones are connected, no sound is output from the system speakers.
- ➔ See also "There is no sound, or the sound quality from the headphones is poor." (➔▶ page 17).

---

**The volume does not turn up.**

- ➔ If "AVLS" under  (Sound Settings) is set to "On", the maximum volume level is restricted.
- ➔ The ear friendly Headphones supplied with PSP-1003 are specifically designed to limit sound pressure level to a maximum of 90dB.

---

**Sound quality is poor.**

- ➔ If the system is used in an area where there are vibrations, or if it is near strong magnetic objects such as a television, the sound may be distorted and there may be increased background noise. Try moving the system to a different location.

---

## UMD™

---

**The system does not recognise the UMD™.**

- ➔ Check that the UMD™ is properly inserted (label is facing the system rear, etc.). Try taking out the UMD™ and reinserting it.
- ➔ Check that the UMD™ recorded surface is clean. If not, wipe it gently with a soft cloth.

---

**The UMD™ does not play properly.**

- ➔ If moisture condensation occurs, remove the UMD™ from the system and do not use the system for several hours until the condensation evaporates.

---

**Upon starting a UMD™, a message recommending an update is displayed.**

- ➔ Update the system software. For details on updates, refer to the Quick Reference booklet supplied with the system.

---

## Memory Stick Duo™

---

**The Memory Stick Duo™ cannot be inserted.**

- ➔ Set the Memory Stick Duo™ in the proper direction when inserting.

---

**The system does not recognise the Memory Stick Duo™.**

- ➔ If Memory Stick Duo™ media is formatted using a PC, it may not be recognised by the PSP® system. If this happens, copy any data you want to keep on the PC, and then go to  (System Settings)
  - ➔ "Format Memory Stick™" and re-format.
- ➔ Check that the Memory Stick Duo™ is properly inserted. Try taking out the Memory Stick Duo™ and reinserting it.
- ➔ Check that the Memory Stick Duo™ connector is clean. If not, the data may not load properly. Wipe the connector with a cotton swab.

---

**The system can't save or load data.**

- ➔ Check that there is sufficient free space on the Memory Stick Duo™ to save data.
- ➔ There may be a problem with the Memory Stick Duo™. Try using another Memory Stick Duo™, if available.

## Video

---

**The UMD™VIDEO does not operate.**

- ➔ If the playback conditions have been set by the software developer, the UMD™VIDEO may not play as described in this manual.

---

**Videos do not play.**

- ➔ Depending on the bit rate, certain videos may not be playable on the system. Check that the video files were converted at a bit rate of 768 kbps or lower.

---

**The system does not recognise a video data item.**

- ➔ Video data of types that are not compatible with the system will not be recognised.
- ➔ If the file or folder name on the Memory Stick Duo™ is changed, or if the file or folder is moved to another location using a PC, the system may not recognise it.

## Music

---

**Music does not play.**

- ➔ Tracks with an expiration date or a limited number of playing times may not be playable on the system.
- ➔ In some cases, copyright-protected music data cannot be played.

---

**Tracks from other groups do not play.**

- ➔ Check that the Group Mode feature is turned off. When turned on, tracks from only one group can be played.

---

**The system does not recognise music data.**

- ➔ Check that the music data is saved in the correct folder on the Memory Stick Duo™. For details, refer to the User's Guide (\*\*▶ page 5).
- ➔ Music data of types that are not compatible with the system will not be recognised.

---

**A group on a Memory Stick Duo™ cannot be deleted.**

- ➔ If there is non-music data in the group, the group cannot be deleted.

## Photo

### Images do not display.

- ➔ Depending on the image data size, certain images are not viewable.
- ➔ If images are edited using a PC, they may not be viewable.

### The system does not recognise the image data.

- ➔ Check that the data is saved in the correct folder on the Memory Stick Duo™. For details, refer to the User's Guide (▶▶▶ page 5).
- ➔ If the file or folder name on the Memory Stick Duo™ is changed, or if the file or folder is moved to another location using a PC, the system may not recognise it.
- ➔ Images that are not compatible with the PSP® system will not be recognised.

### A folder on a Memory Stick Duo™ cannot be deleted.

- ➔ If there is non-image data in the folder, the folder cannot be deleted.

## Network

### A connection to the network cannot be established.

- ➔ Check that the WLAN switch on the left side of the system is turned on.
- ➔ If "WLAN Power Save" under  (Power Save Settings) is set to "On", you may not be able to transmit data correctly.
- ➔ There may be too much distance between the system and the access point or the system and the other player.

- ➔ Check that the network settings are correct. Refer to the instructions supplied with the network equipment and by your Internet service provider to make the correct network settings.
- ➔ Depending on the access point setting, you may need to enter the system's MAC address. You can check the MAC address under  (System Settings) ➔ "System Information".
- ➔ When communicating with another system in ad hoc mode, both systems must be set to the same channel. You can check the currently set channel under  (Network Settings) ➔ "Ad Hoc Mode".

### The Web page won't display properly.

- ➔ Some Web pages may not display properly.

## Headphones with remote control

### There is no sound, or the sound quality from the headphones is poor.

- ➔ Check that the headphones are fully inserted into the system.
- ➔ Check that the headset connector and the headphone plug are clean. If not, wipe them with a dry, soft cloth.
- ➔ See also "There is no sound." (▶▶▶ page 15).
- ➔ The ear friendly Headphones supplied with PSP-1003 are specifically designed to limit sound pressure level to a maximum of 90dB.

### The remote control does not work.

- ➔ Check that the headphones are fully inserted in the system.
- ➔ Check that the remote control is not in hold mode. If it is, clear hold mode.

## Other issues

---

### The system or AC Adaptor is warm.

- ➔ During use, the system or AC Adaptor may become warm. This is not a malfunction.
- 

### The system is turned on, but does not operate.

- ➔ Check that the system is not in hold mode. If it is, slide the POWER/HOLD switch up to clear hold mode.
  - ➔ Try sliding the POWER/HOLD switch up and holding until the POWER indicator turns off. The system will be completely turned off. Then turn on the system again.
- 

### The system does not function properly.

- ➔ Static electricity and other similar occurrences may affect the system's operation. Remove the Battery Pack and AC Adaptor, wait for about 30 seconds and then restart the system.
- 

### When the buttons are pressed, there are no key tones.

- ➔ If "Key Tone" under  (Sound Settings) is set to "Off", no sound is produced.
- 

### The date and time are reset.

- ➔ If the battery is not recharged and runs out, or if the Battery Pack is replaced, the system date and time settings may be reset. Follow the on-screen instructions to set the time and date.
- 

---

### The PSP® system is not recognised by the PC when connected using a USB cable.

- ➔ When using a USB hub or other devices, depending on the operating environment of the PC, the Memory Stick Duo™ inserted in the system may not be recognised by the PC. Try connecting the system directly to the PC using a USB cable.
- 

### You forgot your password.

- ➔ If you restore default settings under  (System Settings) ➔ "Restore Default Settings", the system password will be reset to "0000". For details, refer to the User's Guide (\*\*▶ page 5). Note that if you restore default settings, settings you have adjusted for options other than the system password will also be cleared. Once cleared, these custom settings cannot be restored by the system.

## GUARANTEE

### GUARANTEE

Thank you for buying this Product. The term "Product" means the PSP® system. This Guarantee does not cover any software whether or not packaged with the Product. The system software pre-installed on the PSP® system is licensed to you, not sold, and is for use only as part of the PSP® system. The terms of such system software licence are at <http://www.scei.co.jp/psp-eula>.

Sony Computer Entertainment Europe Ltd ("SCEE") guarantees that this Product is free from defects in material and workmanship that result in Product failure during normal usage in accordance with the terms set out in below and will, for a period of 1 (one) year from the date of original purchase, repair or (at SCEE's option) replace any component part of this Product, free of charge, where it is faulty due to defective materials or workmanship. Replacement will be with a new or refurbished component or unit, at SCEE's option, which is guaranteed for the remainder of the original Guarantee Period.

The benefits conferred by this Guarantee are in addition to the statutory rights and remedies the consumer has in the UK and Eire in respect of this Product and this Guarantee does not affect such rights and remedies in any way. The benefits conferred by this Guarantee are also in addition to other rights and remedies which the consumer has in law in Australia and New Zealand in respect of this Product, including rights and remedies available under the Trade Practices Act 1974 and State and Territory legislation in Australia and the Fair trading Act 1986 in New Zealand and this Guarantee does not affect such rights and remedies in any way.

This Guarantee is given to you by Sony Computer Entertainment Europe Ltd of 10 Great Marlborough Street, W1F 7LP, United Kingdom.

### IMPORTANT

1. If you need to claim under this Guarantee, please call your local Customer Service helpline (listed in the PSP™ current software manual) for return instructions and other guidance.
2. This Guarantee is only valid:
  - i. in the United Kingdom, Eire, Australia and New Zealand; and
  - ii. when the original sales receipt or invoice or other proof of purchase (indicating the date of purchase and retailer's name) is presented together with the faulty Product (and has not been altered or defaced since the date of original purchase); and
  - iii. when the Guarantee seal and the serial number on the Product have not been damaged, altered or removed.
3. To avoid damage to or loss/erasure of removable data storage media or peripherals, you must remove these before submitting the Product for guarantee service.
4. Repair or replacement may involve installation of software or firmware updates for the Product.
5. You may not claim under this Guarantee when the Product is damaged as a result of:
  - i. commercial use, accident, fair wear and tear, negligence, abuse, or misuse (including, without limitation, failure to use this Product for its normal purpose and/or in accordance with instructions on proper use and maintenance, or installation or use in a manner inconsistent with applicable local technical or safety standards);
  - ii. use in conjunction with any unauthorised peripheral (including, without limitation, game enhancement devices, adaptors and power supply devices);
  - iii. any adaptation or adjustment to, or alteration of, the Product carried out for any reason, and whether properly carried out or not;

- iv. maintenance or repairs carried out other than by a SCEE authorised service facility; or
  - v. use in conjunction with unauthorised software, virus infection, or fire, flood or other natural calamity.
6. You may not claim under this guarantee where you are in material breach of your system software licence (see <http://www.scei.co.jp/psp-eula>).
7. To the extent permitted by applicable law, this Guarantee will be your sole and exclusive remedy in relation to defects in this Product and all other guarantees, warranties, terms and conditions, express or implied by statute or otherwise, in respect of this Product are excluded and neither SCEE nor any other Sony entity, or their suppliers or authorised service facilities, will be liable for any special, incidental, indirect or consequential loss or damage.

If this Product needs any repair which is not covered by this Guarantee, please call your local Customer Service helpline for advice. If your home country is not one of those listed, please contact your retailer.

## Additional information

# Specifications

Design and specifications are subject to change without notice.

## PSP® (PlayStation®Portable) system

LCD screen	4.3 inches (16:9) full-transparent type, TFT drive Approximately 16,770,000 colours displayed
Sound	Stereo speakers
Internal disc drive	Read-only UMD™ drive
Interface	DC IN 5V connector Charging terminals Headset connector IR port Hi-Speed USB DC OUT connector Memory Stick Duo™ slot Wireless LAN (IEEE 802.11b)
Power source	AC Adaptor: DC 5.0 V Rechargeable Battery Pack: Lithium-Ion rechargeable Battery Pack
Maximum power consumption	Approx. 6 W (when charging)
External dimensions	Approx. 170 × 23 × 74 mm (width × height × depth) (excludes largest projection)

Weight	Approx. 280 g (including Battery Pack)	
Operating environment temperature	5°C - 35°C	
Compatible codecs	UMD™	Video: H.264/MPEG-4 AVC Main Profile Level 3 Music: H.264/MPEG-4 AVC Main Profile Level 3, Linear PCM, ATRAC3plus™
	Memory Stick™	For details, refer to the User's Guide (**▶ page 5).

## UMD™ laser

Wave length	655 - 665 nm
Power	Max. 0.28 mW
Type	Semiconductor, continuous

## Wireless LAN

Standard	IEEE 802.11b
Security	WEP (128-bit/64-bit) WPA-PSK (TKIP) WPA-PSK (AES)
Modulation format	DS-SS (IEEE 802.11b compliant)

## AC Adaptor

Input	AC 100-240 V, 50/60 Hz
Output	DC 5 V, Max. 2000 mA
External dimensions	Approx. 46 × 22 × 76 mm (width × height × depth) (excludes largest projection)
Weight	Approx. 100g (PSP-1002) Approx. 250g (PSP-1003)

## Battery Pack

Battery type	Lithium-ion rechargeable battery
Voltage	DC 3.6 V
Capacity	1800 mAh

## Headphones

The ear friendly Headphones supplied with PSP-1003 are specifically designed to limit sound pressure level to a maximum of 90dB.

## About the Memory Stick Duo™ supplied with the Value Pack

- Compatible with MagicGate™
- Supports parallel data transfer (high-speed data transfer). This type of highspeed data transfer can be used only with compatible devices. Transfer speed will vary depending on the device used.
- Includes capacity that can actually be used (user capacity) and space reserved for system files. The user capacity of the supplied product is approximately 30 MB.

## Software

Software developed by the NetBSD Foundation, Inc. and its contributors is used for the communication functions of this product. For more information, see <http://www.scei.co.jp/psp-license/pspnet.txt>
